

**Get a handle on your liquid storage!**

**Evolution of  
Smart**

Have you ever wondered where the term “**carboy**” originated?

We did too; and it turns out to have nothing to do with cars or boys! Per the Online Etymology Dictionary, it's "a large globular bottle covered with basketwork, 1753, probably ultimately from Persian qarabah "large flagon". From writings in the early 1800's, it was often used as a large jug for holding corrosive liquids in as safe a manner as possible; usually for transporting chemicals like sulfuric or nitric acid.

In honor of this peculiar-named but well-designed product, Sterlitech is offering a

The EZgrip™ Carboy's body design allows the user to easily hold and manipulate during lifting, filling, and pouring, while VersaCap™ technology provides interchangeable, leakproof top connections. The EZgrip™ Carboy features large top handles, molded hand grips in the base, easy-to-read metric graduation marks certified to ±5% accuracy, and the body material molded into the side for easy identification.

If you use liquid storage in your lab or workplace, and need to manage it in an easy-to-use manner, we're convinced you will be happy with the EZgrip™ line. Available in different body materials appropriate for most any need, and with a wide range of versatile caps, these carboys are a perfect solution for those work with:

- ***Flow Cytometry/FACS (sheath fluid storage/disposal)***
- ***Buffer prep for cell growth (PBS, HEPES, FBS, & dye concentrates)***
- ***Cell Culture (culture media waste/aspirate)***
- ***Fisheries Sciences (synthetic seawater/brackish or estuarine water)***
- ***Chemical Labs (buffer storage and waste collection)***
- ***Environmental Analysis (sample storage/DOT shipping)***
- ***And many more!***

The EZgrip™ carboys are easier to handle, store, and use than any other line of carboy. Many are in stock at Sterlitech and ready to depart upon receipt of an order. Call or email for any questions or to place an order!
